2014.09 - 2017.03 Shanghai Jiao Tong University **Electronic Engineering** 2010.09 - 2014.07 Shanghai Jiao Tong University Information Engineering

RELATED SKILLS

**Computer science**: Familiar with C/C++, Python.

Know about Java, HTML, CSS, Javascript, SQL, Linux

**English** : CET-6: 623

PROFESSIONAL EXPERIENCE

Netease Games: Development of distributed stressing-test framework 2016.07 - 2016.09

 $\triangleright$ Modified the original multi-thread framework to multi-processing

Decoupled IO module and Robot operation module 

 $\triangleright$ Simplified the work of writing flexible testing RPC script

Microsoft: Development of Open-Hackathon Website 2015.12 - 2016.03

Participated in replacing the website's database, from MySQL to MongoDB 

Added new functions (notice display & wysiwyg editor integration)

Studied and added Azure Login for the website

Xichao: Website development (http://xichao-o.com) using Python Flask 2015.01 - 2015.04

Accomplished front-end UI (with Bootstrap + jQuery)

Participated in SQL structure design for the website

Ericsson: Development of Code review tool for Erlang 2013.07 - 2013.11

Developed several static rule inspection modules (Code style, compatibility, etc.)

Q LAB RESEARCH

AVS+ encoder development

2015.07 - 2015.11

Completed new standard (AVS+) related functions  $\triangleright$ 

Optimized some hot spots by replacing C code with assembly (SSE2)

Optimization for open-source video encoder x265 (Graduation project) 2014.03 - 2014.06

- Found out time-consuming parts for intra coding through profiling and reduced their complexity
- Wrote a Python script to simplify the work of generating testing batch files

🛅 AWARDS

2013.09 & 2012.09 & 2011.09 Academic scholarship, Shanghai Jiao Tong University 2014.06

Excellent graduate, Shanghai Jiao Tong University
